

FADE IN.

EXT. GULF PHOTONICS BUILDING. DAY.

SUPER IMPOSED: ACCUBREW HEADQUARTERS - DECEMBER 6th, 3:30 PM.

INT. CRAIG'S OFFICE. DAY.

Interview style CLOSE UP of CRAIG. His name and title populate the lower thirds.

CRAIG

You know, AccuBrew has been a real adventure for us. We know some brewers may be a little skeptical of if they can trust our facility, but that comes with the territory when you try to provide a global service with a product that is first of it's kind.

CUT TO:

B-roll footage of the AccuBrew team "brewing in the office".
Line workers on the assembly.

CRAIG (V.O.)

We've also brought Will on full time at our brick and mortar location.

CUT TO:

WILL IN THE BREAK ROOM WITH PARKER.

They're not doing anything. Just staring at each other. Maybe they don't gel. Parker sips a cup of coffee.

BACK TO:

INT. CRAIG'S OFFICE. DAY.

CRAIG

There has been some healthy adjusting that needed to be done. Bit of a 180 for Will. Going from his lab to our facility here. But the whole team is excited to have him in the building.

BOOOM! The CAMERA SHAKES VIOLENTLY.

An explosion went off in the other room.

A brief 2 second pause.

The camera whips over to Craig's doorway. Will stands in the doorway. He gives Craig a reassuring "Thumbs up" to let him know that was planned.

Will backs away from the doorway without saying a word.

The camera goes back to Craig. There is genuine concern on his face.

FADE OUT.

SUPER IMPOSED:

ACCUBREW... WE'RE NOT GOING ANYWHERE.
